INTERACT III Public Consultation Survey

1 Introduction

Welcome to the public consultation survey of the INTERACT III 2014-2020 programme. INTERACT III is an interregional cooperation programme under the European Territorial Cooperation (ETC) goal of the European Structural and Investment Funds in which all 28 EU Member States plus Norway and Switzerland participate. Its main objective is to provide support to the 2014-2020 ETC community, especially other ETC programmes, thus contributing to reinforcing the effectiveness of EU cohesion policy.

You are kindly invited to provide feedback on the content of the draft operational programme. By sharing your opinion with us, you can contribute to shaping the content of the final programme.

All survey responses will be treated anonymously; still for evaluation purposes we need information on the location and type of stakeholders responding. Questions marked as "(required)" are compulsory; however, we would highly appreciate if you answered all questions. The survey will be open from 9 April to 5 May 2014. Should you have any questions or experience any difficulties, please send an email to szabolcs.csahok@interact-eu.net.

Thank you for helping us by responding to the survey. You will be informed about the results as soon as they are available. Please check regularly the News section of our website to stay up-to-date about the programming process of INTERACT III.
